President's Address.

LADIES AND GENTLEMEN:

In conformity with past custom, it becomes my duty, as President of your Board, to address you upon our work of the past year and its results.

Briefly stated, this is the rescue of little children from the streets, from miserable surroundings, from evil associations, and the providing of a home where while their physical and bodily wants are cared for an effort is also made to eradicate vice, and to overcome inherited tendencies.

Another part of our work is to assist parents who are unable through poverty, ill health, or other unpropitious circumstances to properly care for their helpless little ones.

It has been said "that existence carries with it the right to an opportunity for an unfolding of a child's powers, and if parents fail to do their duty the State must step in to protect the child." In California this is carried out to a great extent by the wise Statutes already enacted, but as soon as possible other laws should be framed confirming and sustaining the rights of those who undertake charitable work as against the whims and caprices of intemperate parents, who, after placing their offspring out of their hands, so often seek to recover possession. During the past year our Nursery has been at times the scene of wild disorder and alarm on account of parents or relatives calling for children at unseasonable hours, and demanding that they be given into their keeping, when they were utterly unable by reason of their condition to care for themselves.

The one change of importance in our home-life occurred last September, when we removed to our present commodious quarters, at 570 Harrison street. Here we are able, without much additional expense—save increase of rent—to accommodate a much larger number of children. The sanitation is improved. We have superior dormitories and a sick ward, most pleasant for the little sufferers.

It is true, the expenses incidental to moving drew somewhat heavily upon our financial resources—especially as it was felt necessary to buy the Kindergarten building, and other improvements left by our predecessors, the Maria Kipp Orphanage. But it is conceded by all interested in our work, "that the end will justify the means," and too much praise cannot be accorded to the wise heads and willing hands of "our devoted few," the members of our Board, who so successfully accomplished this delightful change.

One great need at the present time is beds and bedding—and we do most earnestly hope that some of our kindly disposed and benevolent

people of this city will come to our aid and help us. It is so little for the one who is able to give a bed, but means so much for the poor little waif who needs the gift.

It is with gratitude we mention the name of Dr. Guy E. Manning, our attending physician, who, in the name of charity, for the last three years has so kindly given his care and attention to our little ones.

Much of their good health is due to his skill and faithful oversight.

The Nursery has also had the benefit of the advice of Drs. Ward, Lillienthal, Selfridge and Saltonstall, members of the staff of consulting physicians, each eminent in his specialty.

For several months past, and at the present time, there is an immunity from any sickness or epidemic amongst our children.

Again we are under renewed obligations to our Girls' Auxiliary Earnest Workers, who have accomplished so much good in such a helpful way.

These young ladies, through their friends and themselves, furnish all the shoes and stockings worn by the children, attending especially to this one need. This of itself is a large item in the way of expense as well as care, but this is not all. They also sew for the children, visit them constantly, and their delightful presence amongst the little ones is of itself a benediction.

Christmas, too, ever finds these devoted workers ready to assume all the responsibility of "the tree" for the children, and some of our best donations have come to the Nursery through the well directed efforts and the "appeal" of these young co-workers.

We must commend the beautiful spirit of these young girls who, knowing the blessings of a good home, are encouraged to work that others not so blessed may through them be helped to comparative comfort.

A musical at the Maple Room of the Palace Hotel, a Fair at the residence of Mrs. S. H. Collins and a Tea at the home of Mrs. H. M. Wagner, of Alameda, assisted by "the Little Mizpahs," are the three social events which have taken place during the past year for the benefit of the Nursery, and with pleasure we take this opportunity of thanking all who have contributed to their success.

We regret to say that financially considered we are not as well off at the close of the present year as at the close of 1893. It therefore becomes necessary that systematic plans be immediately formed for the raising of larger sums of money, which must be had in order that we may more thoroughly accomplish the good for which we strive.

May we not hope that friends will be raised up upon whom we can rely for help in the future?

To Miss Wells, our good Matron, and her assistants, and to each and all who have given personal service, money and other gifts since the establishment of the Nursery, we return our grateful thanks.

Respectfully submitted,

MARY F. MCGURN.

Annual Report of the Secretary.

LADIES AND GENTLEMEN:

In conformity with usage, I present a report for the year just ended. Twelve regular and seven special meetings have been held, but in consequence of many of the members being absent a great part of the year the attendance has not at all times been all that could be desired.

Continued stagnation and financial stringency have curtailed our receipts. And increased expenditures, in consequence of removal to our present home, has changed our surplus of last year to a deficit, and there is great need of additional resources for the accomplishment of our work. Although the deficit is not large, it admonishes us of the necessity of renewed activity and effort to replenish our treasury.

Ninety-nine children have been cared for during the year; fifty admitted, thirty discharged, three died, two adopted and homes found for two, leaving sixty-two children under our care January 1st.

Dr. G. E. Manning, our visiting physician, is deserving of our warmest thanks, and we feel that it is impossible for us to repay him for his untiring attention to the children.

To Drs. Ward, Lilienthal and Saltonstall our thanks are due for the past, also for their willing acceptance to serve for another year.

The Trustees have been interested and attentive to the demands made upon them by the needs of the home, and deserve our thanks and gratitude.

The Girls' Auxiliary has proven a most efficient arm of the service and has rendered valuable assistance in supplying funds and necessary articles for the Nursery and deserves our warmest gratitude and regard.

We also wish to thank the "Theodate League," "Little Mizpahs" (two clubs of little girls) and Master James Dunn for a bed and furnishings given by each.

Owing to the necessity for ordinary expenses to carry on the work of the home, little progress has been made in the accumulation of a building fund, but the urgent need of owning a suitable building for its use is every day more apparent.

Earnest, untiring work to replenish the funds will be necessary during the coming year, and frequent appeals to the public will be necessary for aid in the work of supplying a home for the homeless waifs who seek and receive our protection and care.

With thanks to friends who have aided in our work in the past, we hope for its continuance in the future.

Respectfully submitted,

S. E. HOLLIS,

Secretary pro tem.

Report of Attending Physician.

TO THE BOARD OF MANAGERS OF THE

SAN FRANCISCO NURSERY FOR HOMELESS CHILDREN :

LADIES: This constitutes my third report and there is but little I can add to that of last year and the year before, and outside of the figures contained therein one report might almost do for that of another.

My duties might appear to partake of a sameness, as at each visit there are the several wards to be visited, the reports to be heard, the sick ones noted and prescribed for, and the orders to be given for each case. In that respect there may be a similitude, but each case is a "law unto itself," and partakes of special interest and presents new particulars. Besides, my "family" is a large one, and as the province of a physician lies in the prevention of disease as well as the cure, there is much more to be looked after—hygiene, sanitary conditions, the food, care, etc., etc.

Since my last report we have moved into pleasanter and better quarters. Our sick ward is now the pleasantest room in the house—large, sunny, bright, with a southern exposure, and newly furnished. It is almost a pleasure now for the children to be ill, and many are the ailments hunted up by them to "tell the doctor," or magnified into serious ones in order to gain admission; while my orders for the discharge of a patient is in nearly every case received with tears. It is a pleasure to me to think that the children do not look upon the room as a punishment for sins big and little, nor regard the nurse and doctor as ogres or conspirators against their happiness.

There have been the usual epidemics of whooping cough, measles, mumps and chicken pox, but outside of these we have been remarkably free from contagious diseases, especially when you consider the fact that our children attend the kindergarten and the public school of a populous neighborhood, where sickness is prevalent; moreover, children are admitted almost daily from all over the city, and it would be easy enough to introduce germs of fatal diseases.

We have had, during the twelve months just finished, three deaths—all infants, and, in fact, our mortality list has never included any other but nursing babies. These children all suffered from marasms, or, in common terms, malnutrition, so that no matter what food was given them, or how much of it they might take, there was no increase of weight nor flesh, their strength becoming rapidly less and less. Two of them also inherited a tubercular diathesis, which early made ravages upon their systems.

My visits to the Nursery numbered, during the same period, 135, and the prescriptions 590. As you will notice from the reports of the Secretary, the number of the inmates are in excess of previous years, but the prescriptions are nearly one hundred less than last year, and a reduction of over eight hundred on the year previous.

In conclusion, I would like to add that our charity appears to be of the right-hand-not-knowing-what-the-left-hand-doeth description, as so few outsiders seem to know of the object of the institution or of the good work done therein. The columns of papers are often filled with the accounts of the leaving of babies on doorsteps, but they never hear of the poor little specimens left at our doors or in out-of-the-way places without even the heritage of a name. Again, the public hold up their hands in horror at the report of an infant being marked upon its little body with fire or acid, but let them enter our institution and we can lay our hands on several who have the sins of the "third and fourth generation" branded upon them, with marks as ineffaceable and far more painful than those produced by a red hot iron. Only lately the charitably inclined have been moving the very foundations of the city to found a ward for incurables. Come within our walls and we can lay before you several "Little Jims" whom we are endeavoring to make happy the rest of their short lives.

Is it ignorance or carelessness? Oh, rich men of San Francisco! that causes you to forget the refuge of the orphan, the foundling, the neglected and the forgotten—the home for friendless children?

Wishing you, ladies, the success your energies deserve, I remain

Yours in the good work,

DR. GUY E. MANNING,
Attending Physician.

President's Address.

TO THE BOARD OF MANAGERS OF THE

SAN FRANCISCO NURSERY FOR HOMELESS CHILDREN:

LADIES: At this, the close of our second year as the Girls' Auxiliary, I have the honor to present to you briefly a report of the work that we have accomplished, an itemized statement of which will be found in the reports of the Secretary and Treasurer.

The first Monday afternoon of each month our business meeting is held at the homes of the girls and have been well attended.

Every Thursday morning is devoted to sewing for the children, and the First Presbyterian church have kindly allowed us the use of their rooms and machine for the purpose.

We assumed the responsibility and have provided the shoes, stockings and overalls for the children and expect to be able to continue the charge during the coming year.

As on former years, we sent out Christmas appeals and were full well satisfied with the response and had the pleasure of acknowledging cash receipts to the amount of \$315, aside from clothing, food, toys, etc.

The children's Christmas tree, held on Monday, December 24th, in charge of the girls, was a grand success, every child having its hands and arms full of Santa Claus' gifts.

Hoping that we have proved of some valuable assistance to the Board, we desire to extend our thanks for all courtesies received during the year and encouragement from interested friends.

With best wishes for the future prosperity of the Nursery,

Very respectfully yours,

ALICE KINNE BURNHAM,

President Girls' Auxiliary.
